

HYBRID TUKTUK PROJECT

**One million auto rickshaws,
let's make them hybrid!**

**Official invitation
18th of May 2009**

Invitation Hybrid Tuktuk Project

DATE 18th of May 2009
LOCATION Binnenrotte Rotterdam (near the Meent)
TIME 15.45 - 18.00

Enviu invites you to the Hybrid Tuktuk Project Race

On the 18th of May, the Binnenrotte in Rotterdam will be the stage where 4 amazing 'green' tukuks will be presented for the first time! Sustainability guru Wubbo Ockels will be our honorable host and we would like to invite you to be part of this defining moment in history!

The time has come to show the world what the teams have accomplished. After a year of hard work, the Dutch Battle Teams will reveal their technologies which will contribute to a cleaner world and a significant increase in income for many Indian tuktuk drivers.

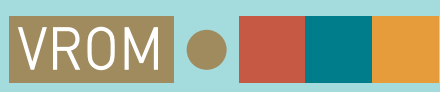

The Battle Teams will present their 'green' tukuks and compete in a first test race for honour. After the race, the tukuks will be shipped to India where the Dutch and Indian teams will meet for the Grand Final.

We hope to see you all on the 18th of May during this spectacular premiere!
